INTRODUCTION

The results of the 2016 Prevailing Wage and Workforce Assessment Study (PWWAS) are being made available in two reports: The first one, this report, contains occupation titles and hourly wage statistics only while the second report will cover workers' demographics and other characteristics. This way, employers will have access to current prevailing hourly wage rates in the Commonwealth right away while the second report is being prepared and made available shortly. There is also going to be a third report comparing the three rounds of the CNMI PWWAS.

THE PURPOSE OF THE STUDY

This is the third round of the CNMI Prevailing Wage and Workforce Assessment Study. The first one was done in 2011 and the second one was done in 2014. The primary purpose of the Study remains the same: "to determine the types of occupations that exist and measure occupation-specific hourly wage rate for each of the identified occupations in the CNMI's economy". Secondly, the Study assesses the CNMI's workforce demographics. The publication of prevailing wage rates in the CNMI became necessary after the implementation of the U.S. Public Law 110-229, which shifted the control of labor and immigration from the CNMI government to the Federal government.

THE TARGET POPULATION

As it was in the first two enumerations the target population of the Study is all employees in the CNMI, including employees of both the private and the public sectors in Saipan, Tinian and Rota.

THE STUDY PERIOD

The study began with the identification and certification of funds and the hiring of a consultant in November 2016. The revision of the PWWAS instrument was completed in January 2017. The field data collection began March 1st and completed on July 28th. Questionnaire reviews began on the first day of the field work, March 3rd, coding began about a week after the start of the field work, while data entry began soon after the coding began. All coding and keying ended at the end of July. Data cleaning began on July 10th and completed in August. Preliminary tabulations and data analysis for this first report began in May and ended with the completion date of this report.

THE METHODOLOGY

COMBINATION OF CENSUS AND SAMPLING APPROACH

In this third enumeration, a combination of census and stratified random sampling was used to select businesses and public offices and agencies--hereon referred to as employers--throughout the CNMI for the Study. As in the previous two rounds, a list of employers was obtained from the CNMI Department of Finance and used as the universe to select employers (and hence employees) for the Study. As shown in Table 1, based on Finance data, 91% of all employers and 92% of total employees (W2 count) were in Saipan, 4% and 6% in Tinian, and only 3% and 1% in Rota, respectively. To capture the highest number, if not all, of the different occupations in the CNMI, and based on knowledge gained from the

Table 1. 2016 Employers, Employees, and Number of Employers to be Surveyed.

Location	Count of Employers	Total Employees (W2s)	Count of Employers Percentage	Total Employees (W2s) Percentage	Number of Employers to be Surveyed
Saipan	1,943	29,415	90.5%	91.7%	1,452
Tinian	80	1,779	3.7%	5.5%	80
Rota	57	346	2.7%	1.1%	57
Guam	9	184	0.4%	0.6%	6
Unknown	57	337	2.7%	1.1%	6
Grand Total	2,146	32,061	100.0%	100.0%	1,601

Source: CNMI Department of Finance, February 2017

prior two series, all employers and employees (i.e. a census) in Tinian and in Rota were included. There were 80 employers in Tinian and 57 in Rota. For Saipan, all employers with 5 or more employees were automatically selected (i.e. a census of all employers with 5 or more employees); there were 852 of these employers in Saipan. For groups of employers with 4, 3, 2, or 1 employees, 100 employers each were randomly selected from each of these 4 groups—a total of 400 employers; hence a total of 1,252 employers in Saipan were selected, initially. In addition, 50 employers each were randomly selected from each of the four employer groups with 4, 3, 2, and 1 employees count—a total of 200—and used as substitutes in situations where a randomly selected employer, for one reason or another, could not participate in the survey. Also, all employers with Guam as their location and employers with unknown location with 5 or more employees (W2s) were included in the Survey. A total of 1,601 employers were selected to be included in the Study: 1,452 in Saipan (1,252 plus 200 alternates), 80 in Tinian, 57 in Rota, 6 in Guam and 6 with unknown locations. Table D1 in Appendix D, shows in further detail, in a table format, employers and employees in the CNMI, based on Finance Department data, and shows the result of the employers' selection process for the Study.

DATA COLLECTION STRATEGY

Data collection for the 2016 PWWAS was undertaken by the CNMI Department of Commerce, Central Statistics Division (Commerce CSD) with the assistance of Dr. Michael Levin and Wil Maui, serving as consultants. Under the CNMI Public Law 7-35, Commerce CSD is the CNMI Government's office authorized to conduct censuses and surveys for the Government; it is the lead agency in conducting surveys in the CNMI and was the lead agency in the two-prior series of the Prevailing Wage and Assessment Studies. It has procedures, expertise, and experience in conducting these types of operations. To collect data from the private sector, Commerce CSD hired and, together with the consultants, trained 12 data collectors (or enumerators) who visited and collected the necessary data from each of the selected employers in the private and public sectors throughout Saipan, Tinian, and Rota. The primary mode of data collection was a personal visit to each of the employers with telephone and email follow-ups when appropriate. The enumerators interviewed the appropriate official from each employer and completed the questionnaire appropriately. In some situations, particularly where many employees were involved, the enumerator went over the questionnaire with the appropriate contact person at the employer's site to be sure the contact person knew how to complete the questionnaire, left the form with contact person to complete, returned later, and picked up the form at a scheduled time. Data were submitted in hard copies on the PWWAS Questionnaire or electronically in MS Excel format. The form of data submission was left up to each employer to decide.

Occupation and wage data from the CNMI government employees were obtained from the CNMI Department of Finance. Data from the autonomous government agencies were obtained with a coordinated effort between Office clerks and the field survey staff.

CONFIDENTIALITY AND PROTECTION OF COLLECTED DATA

Like in the first two rounds, the data collection process for the 2016 PWWAS adhered to the confidentiality and data protection procedures and practices under Commerce CSD. The CNMI Code, Public Law 7-35, also known as the CNMI Statistical Act authorizes, and requires Commerce CSD to establish procedures and practices to ensure maximum confidentiality and protection of all data it collects under the Act. As standard procedure, PWWAS enumerators and clerks were trained on data confidentiality and protection practices and were sworn-in, with "The Oath of Office", as temporary government employees under Commerce CSD, to uphold data confidentiality and protection. A copy of the Oath may be obtained from CSD. The Statistical Act requires Commerce CSD to collect data and CSD expects respondents to respond to CSD's data collection inquiries. As matter of practice, however, CSD collects data more in the spirit of voluntary rather than by strict enforcement of the Law.

Completed questionnaires are kept in a secure, multiple-doors room that is only accessed by sworn-in CSD only employees. The rooms used for the review, coding, and data entry processes are also secured. Only authorized employees are allowed entry into these rooms.

Individual data items on the questionnaire will only be used to derive aggregated statistical information only. No one can obtain individual business forms or records from Commerce CSD; CSD is not authorized to release any

individual form and/or record to anyone, not even, the “owner” of the form/record and CSD is liable for any breach of confidentiality.

THE 2016 PWWAS QUESTIONNAIRE

The data items needed to obtain occupation-specific wage rates and to assess the CNMI’s current workforce demographics are contained in the 2016 PWWAS Questionnaire (PWWASQ), attached as Appendix F.

A copy of the instruction and rational document on each of the items in the PWWASQ may be obtained from Commerce CSD. This brief document was handed out to each of the business/organizations visited by enumerators upon request.

The Questionnaire was designed to collect data at the level of an individual employee position. Individual employee names were not collected. The 2016 Questionnaire was a revision of the 2011 Questionnaire. Some of the items that were in the 2011 and 2014 questionnaires were dropped from the 2016, primarily because those items had low response rates by employers in 2011 and 2014.

THE REFERENCE PERIOD

The Questionnaire was designed to be answered by the owner, human resource (HR) personnel, or manager of a business/organization operating in the CNMI at the time of the Study. The reference period of the Study was November 1st through 16th of 2016, but this reference period was not strictly adhered to. The emphasis was on making sure that the data provided was for period after October 1, 2016, after the incremental increase of the minimum wage in that year. Again, the data collection period was March 1 through July 28, 2017.

FORM COMPLETION

While we encouraged employers to complete all items in the questionnaire, forms that were not completed fully were accepted. To encourage participation, especially towards the end of the data collection period, employers were asked to provide for at least questionnaire items position title, hourly wage rate, and citizenship. High responses on these items is needed to produce reliable, accurate statistics on hourly wage rates by occupational titles, and citizenship.

DATA CODING, KEYING, CLEANING, AND TABULATION

As standard practice, a coding dictionary was created from existing dictionaries and used to properly code each of the individual completed questionnaires for the Study. Four office clerks were trained on how to review forms for accuracy and properly code responses to each of the items in the questionnaire. The data dictionary is available at Commerce CSD.

Coded data were keyed into a Microsoft Access database created to house the PWWAS data. In addition to hard copies, some establishments submitted their data in Microsoft Excel format. Data submitted in Excel were coded in Excel and then merged with the rest of the data in MS Access.

Over 91% of all employers submitted data on paper while 9% submitted in Excel format, as shown in Table 3 below. Electronic submission, however, covered 67% (13,223) while paper submission covered 33% (6,604) of total reported individual employees.

The keyed data were reconciled with the hard copies, cleaned of errors, and readied for tabulation.

Table 2. Survey Forms Submission Type

Submission Type	Number of Employers Surveyed	Number of Employees Captured in the Survey	Number of Employers Surveyed Percentage	Number of Employees Captured in the Survey Percentage
Electronic	130	13,223	8.8%	66.7%
Paper	1,355	6,604	91.2%	33.3%
Grand Total	1,485	19,827	100.0%	100.0%

THE RESULTS OF THE STUDY

EMPLOYERS AND EMPLOYEES IN THE CNMI ECONOMY

Based on the Department of Finance data, 2,146 individual employers² reported a total of 32,061 employees (W2 counts) in the CNMI in 2016, see Table 3 below for detail.

Initially, 1,401 employers (plus 200 alternates) were to be enumerated for the Study, as described in the Methodology section and in Appendix A. At the end of the data collection period, July 28, 2017, 1,485 employers were visited and a questionnaire was completed for each of them: 1,350 in Saipan, 80 in Tinian, and 57 in Rota. As illustrated in Chart 1,

- Before the field work, per Finance data, these
 - 1,485 (69.2%) employers covered
 - 30,225 (94.3%) of the total employees (w2s)
 - The other 661 (30.8%) employers not included in the Study covered less than 6% (1,835) of total employees.

Chart 1. Employers and Employees Distributions: CNMI 2016

SOURCE: FINANCE, FEB 2017

EMPLOYERS AND EMPLOYEES AT THE TIME OF THE SURVEY

During the Survey period, March 1 through July 28, 2017, as illustrated in Chart 2 and detailed in Table 3,

- 80% (1,187) of the 1,485 employers visited had employees; while
- 19% (282) did not report employees. Of these,
 - 10.1% had closed-down
 - 2.7% had no employees
 - 2.6% were visited/contacted numerous time, but did not give any employee data
 - 3.6% could not be found or located
- 1% (16) of total employers fell under the *Other* in Chart 2. Of these
 - 0.7% (11) were duplicates, i.e., they belonged under another employer
 - 0.2% (3) were no longer in the CNMI
 - 0.1% (2) were not selected in the selection process, but were visited.

Chart 2. Employers Profile at the Time of Survey

EMPLOYERS AND EMPLOYEES BY FORM COMPLETION STATUS

In Table 3,

- **Completed Full** represent employers who completed the questionnaire fully;
- **Completed Mostly** are those who completed at least questionnaire items *P1*, *P3*, and *P8*--employee position title, hourly wage rate, and citizenship;

Table 3. Employers and Employees Summary by Completion Status: 2016 PWWAS

Source: Prevailing Wage and Workforce Assessment Study, 2016 CNMI

- **Completed Minimal** are those that gave only the employee count and no individual employee data;
- **Refused** are those that refused to participate and signed a formal refusal form;
- **Business Closed** are those that were visited and verified to have closed-down;
- **No Employee** are those who were visited and verified that they no longer have employees;
- **Exhausted Visits/Communication** are those that were visited/contacted numerous times, but did not formally refuse nor give any employee data;
- **Unable to Locate** are those that could not be found or located by the Survey staff;
- **Duplicate** are those that were part of another employer and hence were surveyed under that other employer;
- **Not Located in the CNMI** are those that are no longer located in the CNMI, and
- **Not Included in the Selection** are those that were visited but were not in the list of selected employers.
- **Employers Not Selected** are those that were not selected based on the survey's method of selection and hence were not visited by survey staff. These were only in Saipan and not in Tinian nor Rota since a complete census was done on these later two islands.

NUMBER OF EMPLOYEES USED IN THE OCCUPATION AND WAGE STATISTICS

A total of 19,827 individual employees reported by 1,124 employers, shown in Table 3 column 6, were used in producing the occupational and hourly wage statistics for this report. The difference between column 5 and column 6 is that column 5 includes the 1,144 and 161 (or 1,305) employees reported by 63 employers who only gave the count of employees, but did not complete or provide data at the level of individual employees. More than half, 10,354 (52.6%) of the 19,827 employees came from *Completed Full* forms while 9,401 (47.4%) came from *Completed Mostly*.

HOURLY WAGE RATE BY SOC DETAILED OCCUPATION TITLES

The 19,827 employees covered 524 different occupations at the SOC Detailed Occupation Titles, the six-digit level. These 524 different occupations and their hourly wage rates are listed in Table 4 below. The occupations are listed in alphabetical order and include the appropriate, corresponding SOC codes. Note that when N (the number of employees) is less than 5, only the mean wage rate is shown while N and median are not shown (blank) for non-disclosure reason.

Table 4. Detailed Occupation Titles, Hourly Wage Rates, and Direct Hourly Wages Rates: 2016 CNMI

Source: 2016 Prevailing Wage and Workforce Assessment Study

Notes: Hourly Wage Rates include all applicable fringe benefits while Direct Hourly Wage Rates exclude fringe benefits.

When N is less than 5, N and median are not shown for non-disclosure reason.

Grand Total (Overall)		19,518	\$12.38	\$8.25	\$10.87	\$7.35

Challenges And Limitations

CHALLENGES

Five-Month Long Data Collection Period A shorter period would have been preferable but to ensure reliable and accurate wage statistics data collection period was extended to increase participation coverage.

Loss of clerical support toward the end of the field work Office workers (data clerks) contracts expired before their work was completed and contributed to delay in project completion.

Enumerator Progress Enumeration progress in Saipan could have been shortened if all enumerators worked each day. Quite typical in these survey work, some enumerators were more productive than others; the slower ones contribute to slow progress in the field work.

Slow Responses from Some of Employers Not all employers willingly participated in the survey contributing to delays in the data collection period.

Incomplete and/or Inaccurate Business Directory Information A large amount of the establishments' directory data provide to Commerce CSD were no longer correct: many phone numbers were no longer the correct ones for current employers; business locations were no longer correct; some business listed could not be located. The lack of accurate directory information on establishments doing business in the CNMI made it hard, time consuming, and costly to locate establishments for the Study.

LIMITATIONS

The most notable limitation of the figures in this report is the fact that not all employers participated fully in the survey.

A few companies reported employee pay on a monthly or bi weekly basis that translate to hourly wage rates below the current minimum wage of \$6.55. It earns a space of mention here, but it is not a real limitation on the averages. The average wage rates are not impacted meaningfully: there were only 254 of these individual employees—which amounts to less than 0.02% of 19,518 total individual employees reported with hourly wage.

Not all employers reported on all fringe benefits that they offer to their employees; hence, fringe benefits statistics are understated (or not as accurate as they could be).

EXCLUSION

This report does not include the results of the workforce assessment part of the 2016 PWWAS. The second report, following this one, will contain findings of the workforce assessment.

Appendices

There are five appendices to this report. The first three appendices are occupations and wage rates statistics at the other 3 levels of aggregation according to the 2010 SOC structure. These may come in useful in broad-based analysis, particularly the Major Group. In a situation where a specific 6-digit occupation might not have been captured or where an occupation occurs for the first time in the CNMI, the wage statistics at the Broad, Minor, or the Major Group for that occupation might suffice as a proxy.

- Appendix A: SOC Broad Titles, Hourly Wages, and Direct Hourly Wages
- Appendix B: SOC Minor Group Titles Hourly Wages, and Direct Hourly Wages
- Appendix C: SOC Major Group Titles Hourly Wages, and Direct Hourly Wages
- Appendix D: Tabular Profile of 2016 Employers and Employees and the Result of the Employers' Selection Process for the Study
- Appendix E: The Study Questionnaire

APPENDIX A: SOC BROAD TITLES, HOURLY WAGES, AND DIRECT HOURLY WAGES

APPENDIX D: TABULAR PROFILE OF 2016 EMPLOYERS AND EMPLOYEES AND THE RESULT OF THE EMPLOYERS' SELECTION PROCESS FOR THE STUDY

Table D1. Tabular Profile of 2016 Employers and Employees and the Result of Employers' Selection Process for the Survey

Source: CNMI Department of Finance

Notes: A total of 1,601 were selected for the Study. All employers in Tinian (80) and Rota (57) were included. In Saipan, all employers with 5 or more employees (852) and 100 each randomly selected from each of the employer groups with 4, 3, 2, or 1 employees--a total of 400--were included. Also, not shown in this table, were 200 employers randomly selected as alternates for the 400 randomly selected in Saipan. Six employers from Guam and 6 unknown location with 5 or more employees were also selected.

Table D1. Tabular Profile of 2016 Employers and Employees and the Result of Employers' Selection Process for the Survey

Source: CNMI Department of Finance

Notes: A total of 1,601 were selected for the Study. All employers in Tinian (80) and Rota (57) were included. In Saipan, all employers with 5 or more employees (852) and 100 each randomly selected from each of the employer groups with 4, 3, 2, or 1 employees--a total of 400--were included. Also, not shown in this table, were 200 employers randomly selected as alternates for the 400 randomly selected in Saipan. Six employers from Guam and 6 unknown location with 5 or more employees were also selected.

APPENDIX E: THE STUDY QUESTIONNAIRE

2016 CNMI Prevailing Wage Study (PWS)

Serial Number:

Your Answers are Confidential

The Central Statistics Division is now conducting the CNMI Prevailing Wage Study. This 2016 Study is to update the Study conducted in 2014.

Thank you for taking part in the Study – your help is important to our community.

The 1990 Statistical Act, P.L. 7-35 authorizes the Central Statistics Division, Department of Commerce, to conduct this Study. This same law also protects the confidentiality of your answers. Only persons who have sworn to uphold the confidentiality of the Study – and no one else – can see your answers.

The Study will benefit you and our community. Study results will be used to:

- *Help determine prevailing wages for occupations in the CNMI to be used for obtaining work visas for foreign labor hiring.*
- *Assess local work-force training needs and programs, and to be used for business policy decisions by business and local government leaders.*

Thank you for making the 2016 CNMI Prevailing Wage Study (PWS) a success.
